Volunteer at the Sharewood Clinic!

What is it? The Sharewood Project offers free, unscheduled health care to the medically underserved populations of the greater Boston area.

What services do we offer? Services include clinical, case management, laboratory, dental, eye, and other types of health care. All services are open to everyone, including the uninsured, and no appointment is necessary.

Where is it? Sharewood is located in the recreation area of the First Church in Malden at the end of Pleasant Street in Malden, MA.

When is the clinic open? The clinic operates Tuesday nights from 6:30 to 9:00 PM. We ask our volunteers to arrive at 5:35PM in order to help set up. All volunteers should stay until the last patient leaves, usually 11PM, in order to help with break down.

Who runs it? Sharewood is run by volunteer medical students and physicians affiliated with Tufts University School of Medicine and Cambridge Health Alliance, with help from other health professional students and translators from Tufts University.

Why volunteer? Sharewood is a mutual give and take where those receiving health services provide a learning opportunity for the Tufts medical students and affiliates. The experience is shared rather than given. Typically, volunteers will be paired with a medical student to interview and examine a patient for the night. This is a great opportunity to interact with patients, learn about medicine, and give back to the community!

Questions or concerns? Email our volunteer coordinators Brian Vogle and Braidie Campbell at sharewoodvolunteers@gmail.com!
